

DESCRIPTION

GULL is the name chosen for the new wall lighting that was missing in the Brilumen portfolio. A 100x100 mm square fixture, made in aluminium, with a CRI higher than 90 and a 100° UP & DOWN beam angle that creates a decorative wall lighting in both directions. Available in a textured white finish, GULL gives a special touch to any interior design. It can be combined with the range of Brilumen textured products for a perfect balance.
