

DESCRIPTION

48V MICRO is a complete low-profile architectural lighting system comprising tracks, adapters, control elements, and concealed connections. Designed for minimalist, elegant, and versatile solutions, it allows for the creation of dynamic and subtle compositions. Developed to meet today's demands for even more compact and unobtrusive components and structures, the MICRO 48V system features extremely small dimensions and a refined technical design — ideal for applications where detail and architectural integration are essential. The range offers various track profiles, ensuring high flexibility in the design and implementation of both technical and decorative lighting projects. Like Brilumen's other 48V solutions, all MICRO tracks incorporate an intelligent core with DATABUS, enabling digital lighting control and ensuring full component compatibility.

MOUNTING TYPE	Suspension
POWER SUPPLY	48V / TRACK
WARRANTY	5 Years
FINISHING	Black, White
CONTROL	DALI
