

**DESCRIPTION**

Oris SlimPro The reduced dimensions of only 26 mm in width make this luminaire slim and distinctive. With a minimalist design, this light fixture was designed for refined spaces, where lighting is discreet, but efficient and with a high CRI. Oris SlimPro has the options of direct/indirect light, opal and prismatic diffuser, different beam angles, low glare reflectors and lenses, and comes in versions adaptable for ceilings, surface or walls. Specially developed to meet the requirements of architects, who are looking for thin and modular lighting fixtures. With SlimPro, it's possible to mount slim lines of light up to 3,375m without the need of joints. A selection of finishing colours starting from white, black to silver. The LED profiles come as well with the options to be configured in ON-OFF, DALI or CASAMBI.
